Customer requirements and consistency of quality service are at the forefront of our quality system, ensuring that both our firm and our clients can be assured that we will satisfy their needs on every occasion. It is the obligation of each employee to adhere to the quality standards established by the system.

Safety Policy

The safety of our staff and the general public is our top priority. Our policy is that our safety standards must be followed to the letter at all times. Despite the fact that these rules are extremely important, it is difficult to publish a rule that covers every scenario. If a rule covering a specific hazardous condition is missing, it is not a reason for disregarding common sense in the safe performance of our work. Maintaining excellence in the safety of the job being done is a vital requirement, not only for the well-being of construction people, but also for the benefits that accrue from improved morale and the expediting of a project's construction period. It is for this reason; a safety program is formulated.

Accident prevention must be prioritized across all phases of operations and management. Some safety regulations have been proposed by the management. The policy calls for open communication between management and employees when it comes to safety issues. Everyone is responsible for ensuring safety and avoiding accidents.

- Outlining the training and skill required to prevent workplace hazards in order to promote a good attitude toward accident prevention.
- Create and enforce safe working procedures and circumstances.
- Adhering to safe work practices, reducing injury and illness, and continuously increasing the system's efficacy.
- Adequate supervision, training, and monitoring of compliance to quality standards are required.
- Ascertain that employee and other understand and accept their responsibilities for promoting a safe and healthy work environment.
- Ensure that contractors working on our property are familiar with and adhere to appropriate safety practices.

Health And Environmental Policy:

The company's health and environment will undoubtedly benefit from the successful implementation of the safety policy. There are no more distinguishing assertions to make. Health and environmental policies are in place to ensure that all work processes are carried out safely. Despite the fact that certain business fields of Mohammad Ali Al Hadbani General Contracting Est. are dependent on external partnerships, the responsibility is handled with the utmost dedication.
